

Security Holder Complaints Handling Policy

The purpose of this Security Holder Complaints Handling Policy (**Policy**) is to explain the approach of Transurban Infrastructure Management Limited (**TIML, we, us or our**) to the management of complaints received from:

- our stapled security holders who are 'retail clients' under the Corporations Act (a **security holder**); and
- any prospective security holder to whom we provide a financial service,

(each, a **complainant**) in relation to financial services provided by us under our Australian Financial Services License (**AFSL**) in our capacity as the responsible entity of the Transurban Holding Trust (**THT**).

If you are dissatisfied with the financial services we provide, you can lodge a complaint in accordance with the procedures set out in this Policy.

How we deal with complaints

If you make a complaint in relation to our financial services we will respond in accordance with our internal Security Holder Complaints Handling Procedure (**Procedure**). We may take the following steps in responding to your complaint:

- promptly acknowledge your complaint;
- investigate and assess your complaint; and
- provide you with a written response (where applicable).

When we will respond

We aim to resolve your complaint in a timely and efficient manner. Where required in accordance with our internal Procedure, we will provide a written response to you within 30 days of your complaint being received.

If we resolve your complaint within 5 business days of receipt, we will generally not provide you with a written response unless you ask for one.

If your complaint is particularly complex, or there are relevant circumstances outside our control, we will

provide you with a delay notification within 30 days of your complaint being received. This delay notice will set out our reasons for the delay in providing a written response and your right to escalate the complaint to Australian Financial Complaints Authority.
