Transurban and its investment partners continue to work with the NSW Government on toll reform. This is an ongoing process with NSW Treasury and Transport for NSW through the NSW Government's Direct Dealing framework.

This continues to be a constructive and iterative process. Transurban is working with the NSW Government towards positive outcomes for Sydney's motorists and the State's productivity. The NSW Government has reiterated the importance of respecting the value of existing contracts and has stated that its preferred approach is to achieve a negotiated outcome with concessionaires.

Transurban continues to actively explore potential new markets that have the key characteristics that we look for and where we could have a strategic advantage. That includes where opportunities come to the market and/or we bring new ideas to government and other stakeholders.
